Re-wind

Coffee Tables

Tavolini realizzati con granaglia di vetro riciclato al 100% che viene trasformata in una pasta modellabile grazie all'uso di polimeri leganti ottenuti da fonti vegetali e rinnovabili. Appositi stampi creano la forma dei tavolini Re-wind, che viene successivamente lavorata e rifinita manualmente per ottenere un pezzo unico ed irripetibile. La finitura è opaca e disponibile nei colori Artico, Grafite, Zefiro.

Coffee tables made with 100% recycled glass granules that are transformed into a moldable paste through the use of binding polymers obtained from vegetable and renewable sources. Special moulds create the shape of the Re-wind coffee tables, which are subsequently worked and finished by hand to obtain a unique and unrepeatable piece. Matt finish, available in Artico, Grafite and Zefiro colors.

Couchtische aus 100% recyceltem Glasgranulat, die durch die Verwendung von bindemittelpolymeren aus pflanzlichen und erneuerbaren Quellen zu einer formbaren Paste werden. Spezielle Formen bilden die Form von Couchtischen, die anschließend von Hand bearbeitet und fertiggestellt werden, um ein einzigartiges und unwiederholbares Stück zu erhalten. Das matte Finish ist in den Farben Arctic, Graphit und Zephyr erhältlich.
